## Goal

My aspiration is to be a versatile developer, creating innovative software solutions and improve my soft and hard skills

## Abstract

I graduated in Computer Engineering from UTFPR and currently work as a software engineer at Wellhub (formerly Gympass). I am responsible for developing communication channels, including chatbots and a help center. I strive to improve and study new technologies, implementing them in my work.
I am currently pursuing a Master's degree in Computer Science at UFSCar, specializing in Artificial Intelligence, specifically in the sub-area of Computer Vision (Visual Language Model).

## Profissional Experience

Via Consulting - 13 months (Sep/2021 to Oct/2022): I worked as technology consultant, using some CRM like Zendesk and salesforce. My main goal was create app and integrate some API's on this platform.

Gympass -13 months (Nov/2022 to at the moment): I'm currently working as software frontend developer, while my main function is create some components, fix bugs, integrate some API's and improve our client chat performance

# Education

M.Sc. Computer Science
- Computer Vision area
- Visual Language Model
- Federal University of São Carlos (UFSCar)
- 10/2024 - 10/2026

Bachelor of Computer Engineering
- federal technological university of paraná (UTFPR)
- 01/2016 - 06/2021
- Relevant Coursework: Object Orientation, Data structure, web development and acessible web.

Bachelor of Theology
- Sulamericana Theology University
- 01/2019 - 12/2022
- Relevant Coursework: People management, leadership

High School Diploma
- High School Interação, Marília, São Paulo
- 2015

# Skills

Technical Skills
1. ReactJS: I had been created some apps using ReactJS.
2. Javascript: Proficiency in Javascript, including asynchronous features.
3. HTML/CSS: Solid understanding of HTML and CSS.
4. RESTful APIs: Knowledge of working with RESTful APIs
5. Front-End Libraries: Familiriarity with some front-end libraries
6. Test: Experience with unit testing, using Jest.

7. Code Quality: Coding standard and best practice to keep the clean code
8. Web Acessibility: Experience with web acessibilities features.
 9. GIT: Experince with GIT versionament.
 10.  Kanban and Scrum: Experience working with agile scrum and kanban.

Soft Skills

Leadership: Demonstrated ability to lead and inspire team.

# Idioms

Portuguese - Native
English - Advanced

# Certifications

Zendesk Administrator Certification
O'really reactJS developer Certification

# Volunteer

Volunteer as developer on Reactstrap open source project, implementing WAI ARIA (Acessibility web) on this library.
